Introduction of AVerTV Software

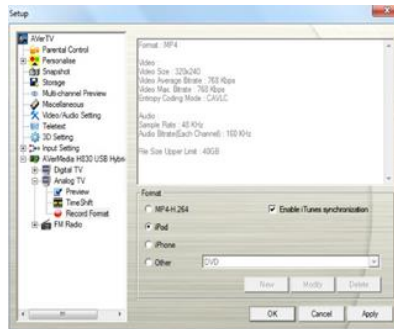

Intuitive User Interface

AVerTV Software provides you an intuitive user interface with frequent-used function buttons listed right on the toolbar. You can easily switch channel, adjust volume, just like the same way you do with TV.

Enjoy TV Shows on iPhone, iPad and Apple TV

AVerTV Software offers users to record favorite programs with H.264 format. Users can enjoy TV shows on iPhone, iPad and Apple TV with real-time H.264 recording technology.

Upload file to YouTube & Facebook

You can upload your video files to YouTube and Facebook and share with friends or others.

Exclusive Color Enhancement

The Color Enhancement is an auto fine-tuning function for the Video Quality. It adjusts video quality and show the astonishingly sharp, HD and vivid video color. De-interlace with Smooth Edge Option gives you the stable and smooth video quality without overeating CPU resource.
