

Safety Instructions and Disclaimer

⚠ WARNING: Failure to follow these safety instructions could result in fire, electric shock, or other injury or damage to device or other property. AVerMedia is not responsible for damage or injury arising from failure to follow safety instructions relating to the product's use.

General Instructions

- Read and follow these instructions.
- Do not use the device on uneven or unstable surfaces.
- Do not use this device in a wet environment or near water.
- Unplug the device before cleaning. Clean only with a dry cloth.
- Use in a well ventilated environment. Do not block any ventilation openings.
- Use the device within the specified temperature range.
- Use power sources within the specified voltage range.
- Do not place heavy objects on the device.
- Do not install near heat sources such as radiators or stoves.
- Do not defeat the safety purposes of the polarized or grounding-type plug.
- Protect the power cord from being walked on or pinched, particularly where the cord connects with plugs or adapters.
- Only use the attachments and accessories specified by the manufacturer.
- Unplug this device during lightning storms or when unused for prolonged time.
- Do not modify or disassemble the device in any way.
- Refer all servicing to qualified personnel.
- Do not dispose the device as general household waste. Dispose in accordance with local environmental laws.

General Battery Instructions

- Never short circuit the battery terminals.
- Store the batteries in a cool dry place.
- Keep the battery away from children.
- Keep the battery away from fire.
- Do not dispose of used batteries in domestic waste. Dispose of batteries at special collection points or return to point of sale if applies.

Button Cell Battery

When replacing the lithium button cell battery, use only the same or an equivalent type that is recommended by the manufacturer. The battery contains lithium and can explode if not properly used, handled, or disposed of.

Removable Battery for Remote Control

- Use of carbon-zinc battery for remote control is strongly recommended. Use of other types of batteries, such as alkaline or rechargeable (nickel-cadmium) may cause battery current overload or battery leakage and corrosion which can damage the remote control.
- Do not charge the batteries.
- Do not mix old with new batteries.
- Do not attempt to disassemble the battery.
- Do not charge the batteries.
- Do not mix old with new batteries.
- Do not attempt to disassemble the battery.
- Do not expose the battery to water or rain.
- Do not mix different types of batteries: alkaline, standard (carbon-zinc) or rechargeable (nickel-cadmium).
- Remove the batteries during long periods of non-use. Always remove exhausted batteries from the remote control. Battery leakage and corrosion can damage the remote control, dispose of batteries safely.

Lithium Polymer Battery

- Attempting to disassemble or modify the battery can cause an explosion or liquid leakage from the battery. If the rechargeable battery is incorrectly replaced, there is danger of an explosion.
- The battery contains a small amount of harmful substances. To avoid possible injury, replace it with a battery type recommended by AVerMedia.
- The battery's working temperature is between 0°C and 35°C, be sure to operate the device within this range. Do not expose it to direct sunlight as it could cause overheating, rupture, or even fire.
- Even if the battery is fully charged and not in use, it will still discharge gradually over time. If you haven't used the device for a while, it is recommended to recharge it before use.
- Batteries are consumable supplies. Their power capacities degrade gradually after repeated charging. Therefore, even when you charge it fully every time, the usage time will still reduce and batteries will eventually die out.
- When the device is in use or charging, it is normal for it to get warm.
- The battery should be stored at room temperature, charged to approximately 30 to 50% of capacity at least once per year to prevent over-discharge.
